

ABISHEK P

Aspiring Data Analyst

+91-8754237648 | Coimbatore, Tamil Nadu, India | [Email](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Detail-oriented fresher skilled in SQL, Python, and Excel, with a growing foundation in Power BI and data visualization. Adept at data cleaning, exploratory data analysis, and dashboard creation, with a strong ability to translate raw data into clear, actionable business insights. Completed Deloitte's Data Analytics Job Simulation; passionate about leveraging data to support data-driven decision-making as an entry-level Data Analyst.

TECHNICAL SKILLS

Programming Language: Python (Pandas, NumPy, Matplotlib, Seaborn), Java.

SQL: Joins, Subqueries, Aggregations, Data Manipulation

Power BI: Dashboard Creation, Data Modelling, DAX basics

Excel: Pivot Tables, Lookup Functions, Data Cleaning, Power Query

Databases: PostgreSQL, MySQL, MongoDB

Skills: Problem-solving, Data Storytelling, Critical Thinking, Communication, Team Collaboration

PROFESSIONAL & VIRTUAL EXPERIENCE

DELOITTE AUSTRALIA (via Forage)

Data Analytics Job Simulation

March 11, 2025

- Completed a Deloitte job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau.
- Used Excel to classify data and draw business conclusions.

PROJECTS

E-commerce Sales Analysis

Python (Pandas), SQL, Excel, Power BI

- Cleaned and analyzed 9,900+ retail order records using Python and Excel, resolving missing values, duplicates, and formatting inconsistencies to prepare data for analysis.
- Built an interactive Power BI dashboard with multiple visuals tracking revenue, profit margin, and sales trends across regions and product categories.
- Wrote SQL queries to segment top-performing products and customers, surfacing revenue concentration patterns to support business decision-making.
- Formulated business recommendations based on regional performance gaps, identifying a potential 12% optimization in low-performing product categories.

Customer Churn Analysis

Python (Pandas, Matplotlib/Seaborn), SQL, Excel

- Analyzed 7,000+ customer records to identify key churn drivers across contract type, tenure, and monthly charges using Python and exploratory data analysis.
- Built visualizations highlighting churn rate segmented by customer demographics and service attributes.
- Used SQL to query and segment customer cohorts, and Excel pivot tables to cross-validate churn patterns by contract type.
- Developed a churn mitigation strategy targeting high-risk monthly contract cohorts, aiming to increase customer retention via targeted marketing recommendations.

INTERNSHIP EXPERIENCE

Web Development Intern - EZIO Solutions Pvt Ltd, Coimbatore

Jan 2024 – Feb 2024

- Developed responsive web pages and UI components using HTML, CSS, and JavaScript based on project requirements, with close attention to cross-browser consistency.
- Collaborated with a development team of 4, communicating progress and blockers daily to meet all project deadlines, and documented setup steps for handoff.

EDUCATION

KPR Institute of Engineering and Technology, Coimbatore

Oct 2022 – Apr 2026

Bachelor of Engineering, Computer Science and Engineering - CGPA: 7.2/10

Sri Kalaivani Matriculation Higher Secondary School, Tirunelveli

Jun 2021 – May 2022

HSC: 78.16%

Sri Kalaivani Matriculation Higher Secondary School, Tirunelveli

Jun 2019 – Mar 2020

SSLC: 83.2%

CERTIFICATIONS

- Python for Data Science - Coursera
- AI and Development - IBM (Coursera)
- Introduction to NoSQL Databases - IBM (Coursera)
- MongoDB CRUD Operations in Python - MongoDB

ACHIEVEMENTS & LEADERSHIP

- Qualified for Round 2 of Smart India Hackathon, a national-level government innovation competition (top ~15% of participating teams).
